

Business Product Guide
2009/2010

We are the UK's leading horticultural services company making work better by supplying and caring for office plants, shrubs and gardens, indoors and out.

After 25 years in the horticulture business, we know a thing or two about giving our clients a first-class service. Nowadays, that service covers everything from plant displays and grounds maintenance through to Interior Landscaping, gritting, food waste collections and composting. Whatever you are looking for, we can provide a service to match. And we will do so in a way that will help reduce your impact on the environment.

The use of interior flower displays is a fantastic way of improving your work environment at a moderate cost. These can be weekly, fortnightly, monthly or ad-hoc events.

In this guide you will find a showcase of bouquets and arrangements to suit any locality, all of which can be delivered through the Enterprise Plants network.

With a worldwide network of professional florists, we can deliver throughout the UK and to over 140 countries around the world. Every one of our bouquets and arrangements will be hand-made by one of our expert florists and personally delivered.

Our corporate Interior Landscaping service includes:

Full floristry design suited to your bespoke requirements, regular change of flowers as required for contract and competitive pricing.

This brochure is intended as a guide to the stunning displays that can be created to meet both your budget and brief. Our florists work with a wide range of beautiful materials, carefully chosen flowers and unusual containers. The products shown however, are of course available for order as seen.
